- Peñaflor, RM, Chile.

SUMMARY

Full Stack Developer with over three years of experience building scalable web applications. I have worked on projects ranging from content management platforms to real-time systems using WebRTC and WebSockets. I specialize in payment API integration and application performance optimization. Passionate about Linux infrastructure and developing efficient, secure solutions. Currently exploring React with Next.js to expand my skill set.

SKILLS

- Frontend: Vue 3, Nuxt 3
- Backend: NestJS, Node.js, TypeScript, JavaScript
- Databases: MySQL, PostgreSQL, MongoDB
- Infrastructure: Linux, PM2, GitHub
- Others: WebRTC implementation with WebSockets, payment system with Transbank APIs
- Basics: PHP, Java, C#, Python

EXPERIENCE

- 2024 - 2025 | FULLSTACK DEVELOPER (FREELANCER) | SERPROEN**
- Developed a web platform to manage news, benefits, surveys, and documents using Vue 3 on the frontend.
 - Built a secure backend with NestJS for data handling.
 - Implemented reCAPTCHA v3 and two-factor authentication in the dashboard for enhanced security.
- 2022 - 2024 | FULLSTACK DEVELOPER (FREELANCER) | WINAULAMASTER**
- Created smooth user experience web apps with Vue 3.
 - Developed a robust backend with NestJS, including authentication and real-time services.
 - Integrated WebRTC and WebSockets for video calls and chat features.
 - Built a secure payment platform using Transbank APIs.
- 2022 - 2024 | MOBILE APP DEVELOPER (FREELANCER) | BITECMA**
- Developed a Kotlin mobile app for field data collection.
 - Implemented offline/online functionality, local storage, and geolocation features.
- 2021 - 2024 | FULLSTACK DEVELOPER (FREELANCER) | GDGESTIÓN**
- Developed web applications using Vue 2 and native Kotlin mobile apps.
 - Created backend APIs and efficient services with Express.js.

EDUCATION

- 2018 - 2020 | SOFTWARE DEVELOPER | INACAP MAIPÚ**
University
- 2021 | FRONTEND DEVELOPMENT SUPPORT (VUE.JS 2.0) | ELTURF**
Professional Internship
